

# COVE NEWS

DECEMBER 2021

WINTER HOURS – Monday through Thursday 7 am to 5:45 pm – Friday through Sunday 7 am to 6:45 pm.

## SANTA WILL STILL BE VISITING CHILDREN

So please bring your Tots for Tots donations to the Palm Cove Marina office. Unfortunately, due to Covid - 19, we have cancelled our Christmas Party. We will host a better than ever, Christmas Party in December of 2022.

*Merry Christmas & Happy New Year to all!*

### MAINTENANCE TIPS

1. Add fuel stabilizer to your tank, run the engine(s) long enough to get the treated fuel into the engine. (Five minutes is usually enough)
2. Water pump impellers are due to be replaced at the 2-year mark or 200 hours, whichever comes first.
3. Batteries are typically due for replacement in 2 to 3 years. Unlike your automobile, boat batteries are in a much harsher environment.
4. While flushing the engine with fresh water, it is a good idea to look under the cowling or engine room while it is running. Look for any fluid leaks. Remember not to get close to any moving parts.

### CLEANING UP DRY STORAGE

We continue to keep Palm Cove Marina a safe and clean environment.

Any customers that have personal belongings they cherish and would like to keep... Please remove them from our dry storage building by 1/1/22

### DRY STORAGE CUSTOMERS

**PLEASE HELP US HELP YOU!!**

When calling the dry storage phone, if your forklift operators don't answer your call please leave a detailed message, our operators retrieve these messages every few minutes. This request will actually speed up our process.

Please limit your time to 30 minutes on both the B-Dock and our wash racks. We encourage you to spend as much time as you wish in any open wet slip, please make sure there are no electrical cords, dock lines, water hoses or fenders in your wet slip choice, please check with our staff for availability. Keep in mind our forklift and ships store will stop 15 minutes before the posted time.

**FUEL PRICES...**Our goal is to have the LOWEST fuel prices in the surrounding area.

For a complimentary vessel safety check, call Andy Koenig at 989-400-2173

## MARINE SERVICE

WINTER is here!

Don't be fooled by imitation non certified marine technicians. Get your vessel serviced by (THE REAL DEAL) certified techs at Isle of Palms. We are certified in Mercury outboards, Mercruiser stern drives, Yamaha outboards, Volvo Penta stern drives and Evinrude outboards. There is a difference.

We use genuine OEM parts.
